

PALLET MAGAZINE MAGAPAL®

ORGANIZE, OPTIMIZE AND SECURE YOUR PALLET STORAGE AREAS

A solution developed by

MAGAPAL® PALLET MAGAZINE FOR STACKING & DESTACKING

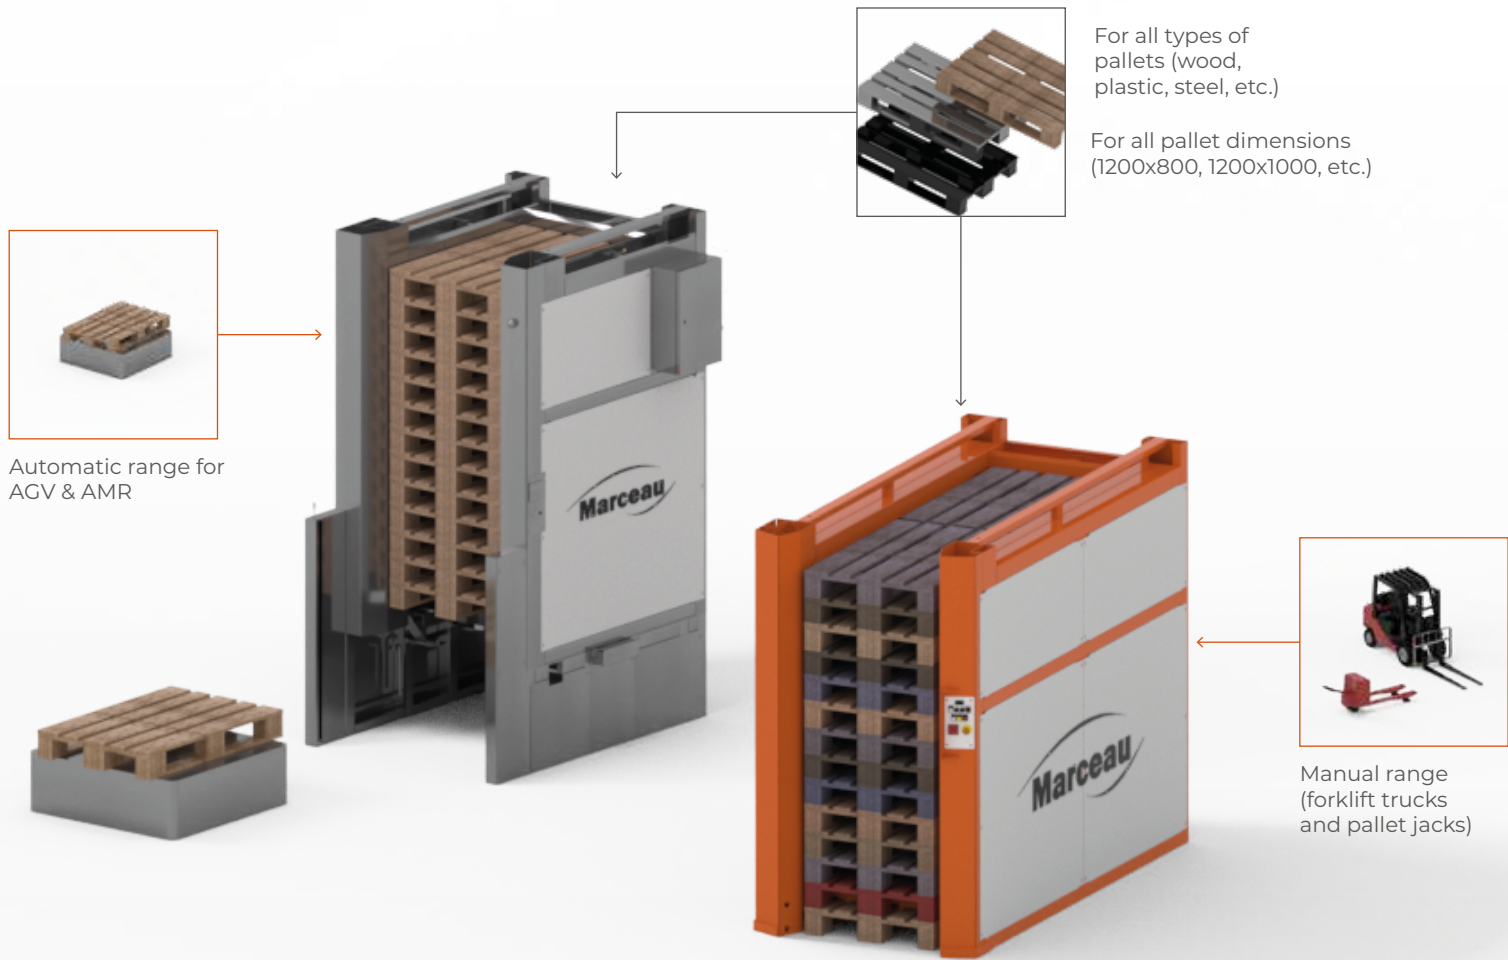

Increase productivity while reducing accidents and RSI for your operators linked to manual pallet handling.

MAGAPAL pallet storage systems are designed and manufactured to meet your specific requirements, ensuring operator safety and improving the quality of pallet stack storage.

Function :	Stacker - Destacker - combined
Cadence max :	Up to 100 pallets per hour
Capacité :	Up to 30 pallets/store

Mechanically welded chassis and sheet-metal fairing (inside/outside) for a robust design.

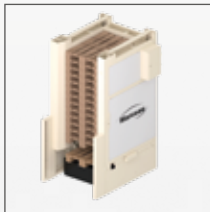

Compliant with Directive 2006/42 EC on technical rules and procedures for certification of conformity or incorporation, our solutions are aimed at the following sectors: agri-food, industrial, pharmaceutical, chemical, cosmetics, retail and logistics.
